Comment on the Education and Skills Committee's Infrastructure Report

Commenting on the Education and Skills Committee's Infrastructure Report, Shona Struthers, Chief Executive, Colleges Scotland said:

"Colleges Scotland welcomes the committee's recommendations on college estates. We take the health and safety of staff and students extremely seriously and all colleges, both periodically and in response to specific issues, carry out reviews of all their buildings, including materials used and construction and relevant safety checks. An estates conditions survey is nearing completion which will provide evidence on the current requirements for the sectors' buildings. We will be working closely with the Scottish Funding Council and colleges to take forward the recommendations in the committee's report."
