Comment on the Latest Labour Market Statistics

Commenting on today's labour market statistics, Shona Struthers, Chief Executive, Colleges Scotland, said:

“Colleges make a vital contribution to Scotland's labour market by training, upskilling and ensuring people are work-ready and able to meet the needs of businesses. That means an ongoing commitment to enhancing engagement with employers – which happens right across the country, with colleges supporting the economic needs of their regions. Research shows that every college graduate boosts productivity in Scotland by £55,000.”
