Comment on the College of the Future Scotland Report

Shona Struthers, Chief Executive of Colleges Scotland, said:

“We are pleased that the Commission on the College of the Future has published a Scotland-specific report, building on the publication of the UK-wide report. The report highlights the vital role that colleges in Scotland play in equipping people with the training and qualifications they need to secure skilled jobs and improve their life chances. Colleges will be vital to ensuring that we recover from the pandemic – both economically and socially –and thrive as a nation.

“The recommendations for Scotland are bold and ambitious, and will inform the ongoing discussions in Scotland around the future of tertiary education, and the Review of Coherent Provision and Sustainability of colleges and universities being taken forward by the Scottish Funding Council.”
