Colleges Scotland's comment on the 2015 Exam Results

Shona Struthers, Chief Executive, Colleges Scotland said:

“We are pleased that students across Scotland have achieved record levels in their exam results and we congratulate them on their success. We note in particular the strong performance in qualifications related to wider skills for life and work, as well as in the new Highers.

“Colleges in Scotland offer a wide range of courses that provide pathways to employment, both in traditional areas such as engineering and business and also emerging areas like renewable energy, life sciences, health and social care and the creative industries. By providing these courses from entry level up to degree qualifications, colleges have much to offer students no matter the level of their success.

“College places are in great demand at this time and Colleges Scotland would urge students to get in touch with staff at their regional college to find out the opportunities that are available to them”.
