Comment on Harmonisation

Shona Struthers, Chief Executive of the Colleges Scotland Employers' Association said:

"The agreement reached in March 2016 with the EIS was significant for the sector. It was however the first step in a long and indeed complex process of returning to National Bargaining in the college sector after more than 20 years.

"The Employers are confident that the agreement will be honoured in full. In order to deliver the full benefits to lecturing staff, it is vital that the EIS work with the Employers. We want to develop a dynamic modern workforce that will deliver real benefits for students and the economy, which is what we all signed up for. The EIS has an important role to work with the Employers to help shape the workforce for the future and we hope that we can continue these discussions."
